### Who we are?

We are a steel manufacturing company with a wide range of steel processing capabilities. There are several CNC sheet metal punching and bending machines in our equipment with different processing sizes, as well as welding, sand blasting and powder coating equipment.

### Where we are?

The main factory is located in the westside of Latvia, in one of the oldest towns in the country. Just 1-2 hours from two of countries cargo ports.

### How determined we are?

We started in 2018. with 3 factory workers and a turnover of 146 000 euros. The year 2021 we finished as a great team of 15 specialists and reached 1 million euro turnover milestone.
