### Who we are?

We are a steel manufacturing company. One of our main products is the production of steel doors. We produce single and double leaf steel doors for houses and apartments, public buildings and industrial premises, for entrances and utility rooms. Certificated steel doors with fire resistance EI30 and EI60.

### Where we are?

The main factory is located in the westside of Latvia, in one of the oldest towns in the country. Just 1-2 hours from two of countries cargo ports.

### How determined we are?

We started in 2018. with 3 factory workers and a turnover of 146 000 euros. The year 2021 we finished as a great team of 15 specialists and reached 1 million euro turnover milestone.
